

Supplementary Table 1. List of ingredients for migraine treatment regimens

List of ingredients	
Prophylactic treatment	
Antidepressants	Amitriptyline, venlafaxine, nortriptyline
Anticonvulsants	Divalproex sodium, valproate, topiramate
Beta-blockers	Propranolol, atenolol, nadolol
Calcium-channel blockers	Flunarizine
RAAS inhibitors	Candesartan, olmesartan, telmisartan, lisinopril
Acute treatment	
Ergotamines	Ergotamine/cafeine
Triptans	Sumatriptan, zolmitriptan, almotriptan, frovatriptan, naratriptan
Acetaminophen	Acetaminophen, propacetamol, paracetamol
NSAIDs	Aceclofenac, acemetacin, alminoprofen, aloxiporin, amfenac, auranofin, benorylate, bumadizone, cinnoxicam, clonixin, dexibuprofen, diclofenac, diclofenac- β -dimethyl-aminoethanol, diflunisal, emorfazone, etodolac, etofenamate, fenbufen, fenoprofen, flufenamic, flurbiprofen, ibuprofen, ibuprofen, ibuprofen, imidazole, indomethacin, ketoprofen, ketorolac, lonazolac, loxoprofen, meclofenamate, mefenamic, meloxicam, nabumetone, naproxen, nimesulide, oxaprozin, piroxicam, pranoprofen, proglumetacin, sulindac, talniflumate, tenoxicam, tiaprofenic, tolfenamic, zaltoprofen, celecoxib, rofecoxib, bucillamine, lornoxicam, dexketoprofen, morniflumate, pelubiprofen, polmacoxib, etoricoxib
Antiemetics	Metoclopramide, Ondansetron, granisetron, palonosetron
CGRP antagonists	Galcanezumab, Fremanezumab, Atogepant

RAAS, renin-angiotensin aldosterone system; NSAIDs, nonsteroidal anti-inflammatory drugs; CGRP, calcitonin gene-related peptide.
